ABOUT ME

Final-year Computer Science student at Sir Syed University of Engineering and Technology who builds web and mobile interfaces for real businesses. I have built a 45-page finance website with nine calculators, a React website for a solar company, and IOU Book, a bilingual (English/Urdu) React Native app for shopkeepers. Looking for a front-end or React Native internship where I can ship real features with a team.

PROJECTS

IOU Book – Credit Ledger App | React Native, Expo, TypeScript, Jest [Code](#)

- Built a bilingual (English/Urdu) mobile app that lets shopkeepers track customer credit, with running balances, search and sorting, and one-tap WhatsApp payment reminders.
- Designed offline-first storage with AsyncStorage and right-to-left layouts for Urdu; the ledger logic is covered by 38 unit tests that run on every push with GitHub Actions.

Mac International – Finance Website | HTML, CSS, JavaScript, Bootstrap, Firebase [Live](#) · [Code](#)

- Multi-page website (45 pages) for an Australian finance and real-estate brokerage, with loan comparison pages and service enquiry forms.
- Nine JavaScript financial calculators, including borrowing power, loan repayments, stamp duty and rent vs buy; deployed on Firebase Hosting.

Solar Vision – Company Website | React, TypeScript, Vite, Tailwind CSS [Code](#)

- Marketing website for a Karachi solar-energy company with Home, Products, About and Contact pages, scroll animations and a WhatsApp enquiry button, built from reusable shadcn/ui components.

SKILLS

Languages: JavaScript, TypeScript, HTML, CSS

Frameworks & Libraries: React, React Native (Expo), Next.js, Tailwind CSS, Bootstrap

Tools & Platforms: Git, GitHub, GitHub Actions, Jest, Vercel, Firebase Hosting, WordPress

Practices: Responsive design, accessibility, offline-first apps, unit testing, cross-browser compatibility
